

The outPHit initiative

Deep retrofits made faster, cheaper and more reliable

- pairing streamlined and pre-fab retrofitting approaches with Passive House rigour in the form of the EnerPHit Standard
- addressing barriers to uptake; developing retrofit systems, decision making tools and quality assurance schemes
- Proof of concept via case studies projects across Europe

Oct 2020 – Sep 2023 | EU funded: H2020 | 10 partners, 7 countries
