

1 RETROFITTING INITIATIVE

10 PROJECT PARTNERS

7 EUROPEAN COUNTRIES

Confronting inefficiency in existing buildings by pairing prefabrication and streamlined processes with the rigour of the EnerPHit Standard for renovations according to Passive House principles.

outphit.eu

The logo for outPHit features a stylized white icon of three slanted parallel bars to the left of the text 'outPHit' in a bold, white, sans-serif font. The background is a large, semi-transparent green circle with a teal-to-green gradient, overlaid on a photograph of a modern house with solar panels on its roof. The house is a two-story building with light-colored horizontal siding and a dark roof. The overall image has a clean, modern aesthetic with geometric shapes and a color palette of greens and teals.

**DEEP RETROFITS
MADE
FASTER, CHEAPER
AND MORE RELIABLE**

On the basis of case studies across Europe, outPHit is addressing barriers to the uptake of high quality deep retrofits and facilitating the development of high performance renovation systems, tools for decision making and quality assurance safeguards.
